

SOMNATH COAL • BLACK DIAMOND COAL • VEDRISHA MULTI VENTURES

GROUP BUSINESS PROFILE

ENERGY • TRADE • AGRICULTURE • FUTURE VENTURES

One leadership. Three independent sister concerns. One long-term vision.

OUR JOURNEY

Built Through Three Stages of Growth

Under the leadership of Mr. Arjun Dave, three independent sister concerns combine operating depth, market access and a forward-looking venture platform.

2017

01

SOMNATH COAL

Established to build dependable industrial coal processing, quality control and supply capabilities.

₹15 CR+ REPORTED TURNOVER

2023

02

BLACK DIAMOND COAL

Established to connect industrial demand with structured coal trading, export coordination and agricultural commodity supply.

₹24 CR+ REPORTED TURNOVER

2026

03

VEDRISHA MULTI VENTURES

Established as a diversified sister concern focused on energy, trade, agriculture, solar, machinery rental and future industrial opportunities.

₹100 CR GROWTH VISION

03

Complementary by design

The concerns remain independent while sharing a common philosophy: dependable execution, transparent relationships and disciplined long-term growth.

LEADERSHIP

Owner's Message

Reliability must be visible in every order, every relationship and every new venture we build.

Our journey began in 2017 with a commitment to serve industrial energy needs through dependable supply and disciplined quality practices. After strengthening processing and quality capabilities at Somnath Coal, we expanded our market reach through Black Diamond Coal across coal trading, export coordination and agricultural commodities.

With Vedrisha Multi Ventures, established in 2026, we are taking a structured step into new areas including solar energy, import-export and future industrial projects. For us, growth is not only about scale. It is about creating consistent value through quality, transparency, timely execution and long-term partnerships.

We remain committed to responsible, future-ready entrepreneurship that helps customers, partners and communities progress with confidence.

BUSINESS ARCHITECTURE

Three Concerns. Complementary Strengths.

A clear role for each concern creates a connected platform spanning industrial fuel, market access, agricultural trade and emerging ventures.

2017

MANUFACTURING, PROCESSING & SUPPLY

Industrial coal sourcing, processing, grade matching, testing, blending support and dependable supply for energy-intensive operations.

2023

TRADING, EXPORT & AGRICULTURE

Coal trading, export coordination, logistics support and quality-focused agricultural commodity sourcing for domestic and international markets.

2026

DIVERSIFIED & FUTURE VENTURES

A multi-sector platform focused on energy and coal, agriculture, import-export, solar energy, future industrial projects and heavy machinery rental.

Fueling the Future

SOMNATH COAL | EST. 2017

Dependable Fuel for Industrial Continuity

Somnath Coal is positioned as the group ecosystem's processing and supply concern, serving industries that require steady fuel performance and disciplined delivery. Its operating approach integrates sourcing, processing, quality checks, logistics and grade matching.

₹15 CR+ | REPORTED BUSINESS TURNOVER

01

QUALITY FOCUS

Batch-wise attention to GCV, moisture, ash and volatile matter.

02

CUSTOM MATCHING

Coal grades and blending support aligned to boiler, kiln or furnace needs.

03

SUPPLY DISCIPLINE

Structured sourcing and logistics coordination for regular and bulk demand.

04

TECHNICAL SUPPORT

Application-led selection across lignite, steam, coking and bituminous coal.

CORE INDUSTRIAL APPLICATIONS

Power generation

Cement

Steel

Boilers

Furnaces

Manufacturing

QUALITY SYSTEM

Quality from Source to Dispatch

Somnath Coal presents a quality framework built around source validation, laboratory testing, controlled handling, grade matching and final batch confirmation.

01

SOURCE VALIDATION

Origin screening, visual grade inspection and preliminary performance checks.

02

LAB TESTING

Monitoring of GCV, total and inherent moisture, ash and volatile matter.

03

GRADE MATCHING

Selection and blending support to align fuel behavior with equipment needs.

04

FINAL CONFIRMATION

Weight verification and batch-wise test reporting before dispatch.

GCV

Heat value

TM / IM

Moisture

ASH

Residue

VM

Ignition behavior

Quality framework highlighted by Somnath Coal: batch testing, ASTM-aligned methods and a zero-deviation goal.

BLACK DIAMOND COAL | EST. 2023

Connecting Industrial Demand with Reliable Supply

Black Diamond Coal is a coal trading and export concern built to connect industrial buyers with dependable sourcing, clear commercial coordination and timely delivery. It is supported by Somnath Coal's processing and supply capabilities.

₹24 CR+ | REPORTED BUSINESS TURNOVER

- 01 DEMAND ASSESSMENT**
Application, quantity and target specification review.
- 02 PROCUREMENT ALIGNMENT**
Grade, performance and commercial fit through dependable channels.
- 03 SHIPMENT EXECUTION**
Scheduling, logistics and dispatch coordination.
- 04 AFTER-SALES SUPPORT**
Responsive coordination throughout the business relationship.

TRADING PROMISE

Consistent quality. Transparent coordination. Timely movement. Long-term support.

COAL PORTFOLIO

Coal Grades for Diverse Industrial Needs

The portfolio spans four principal coal categories. Final commercial specifications are confirmed lot-wise and contract-wise.

LIGNITE COAL

GCV kcal/kg	2,500 - 4,500
Moisture	30% - 60%
Ash	6% - 19%

PRIMARY APPLICATIONS

Power, cement, brick kilns, continuous heating

STEAM COAL

GCV kcal/kg	3,500 - 7,000
Moisture	5% - 25%
Ash	5% - 35%

PRIMARY APPLICATIONS

Boilers, power, cement, furnaces

COKING COAL

GCV kcal/kg	6,000 - 8,500
Moisture	5% - 12%
Ash	8% - 18%

PRIMARY APPLICATIONS

Steel, coke plants, foundries, metallurgy

BITUMINOUS COAL

GCV kcal/kg	5,000 - 7,500
Moisture	5% - 15%
Ash	5% - 20%

PRIMARY APPLICATIONS

Power, cement, steel, industrial heating

Indicative ranges published on the company websites. Actual values may vary by origin, grade, sampling method and contract. Batch-wise laboratory confirmation applies.

INDUSTRIAL REACH

Serving Energy-Intensive Operations

Product selection is aligned to the combustion profile, operating environment and commercial priorities of each customer.

POWER

01

Thermal generation and captive energy requirements

CEMENT

02

Kiln heat and stable continuous operations

STEEL

03

Metallurgical and non-coking applications

BOILERS

04

Process steam and industrial heating

BRICK KILNS

05

Cost-conscious, continuous heat generation

CHEMICALS

06

Fertilizer and process-industry fuel needs

MANUFACTURING

07

Furnaces, dryers and plant utilities

FOUNDRIES

08

Coke and high-temperature process applications

The right coal is not simply the highest grade. It is the grade that delivers the right heat, consistency, handling and cost for the application.

AGRICULTURE COMMODITIES

From Farm Origins to Market Demand

Black Diamond Coal also operates a quality-focused agricultural commodity portfolio. The approach centres on dependable sourcing, careful selection, supply planning and market-ready coordination for domestic and international trade.

GRAINS

Wheat, pearl millet, sorghum and maize

PULSES

Chickpea, pigeon pea, green gram and black gram

OILSEEDS & FIBRE

Groundnut, sesame, mustard and cotton

FRESH PRODUCE

Lemon and pomegranate

SUPPLY PRIORITIES

Consistent quality selection

Dependable availability

Careful handling

Domestic and export support

VEDRISHA MULTI VENTURES | EST. 2026

A Diversified Platform for the Next Phase of Growth

Vedrisha Multi Ventures is an independent sister concern created to identify, structure and scale opportunities across established and emerging sectors. As a new venture, its focus is on disciplined project selection, strategic partnerships and long-term value creation.

₹100 CR | GROWTH VISION

STRENGTH • STRATEGY • SUCCESS

01 ENERGY & COAL

Sourcing, trading and industrial energy opportunities.

02 AGRICULTURE

Commodity supply chains and market linkage.

03 IMPORT-EXPORT

Cross-border sourcing and trade development.

04 FUTURE PROJECTS

Evaluation of scalable industrial opportunities.

05 SOLAR ENERGY

Partnership-led solar and clean-energy opportunities.

06 HEAVY MACHINERY RENTAL

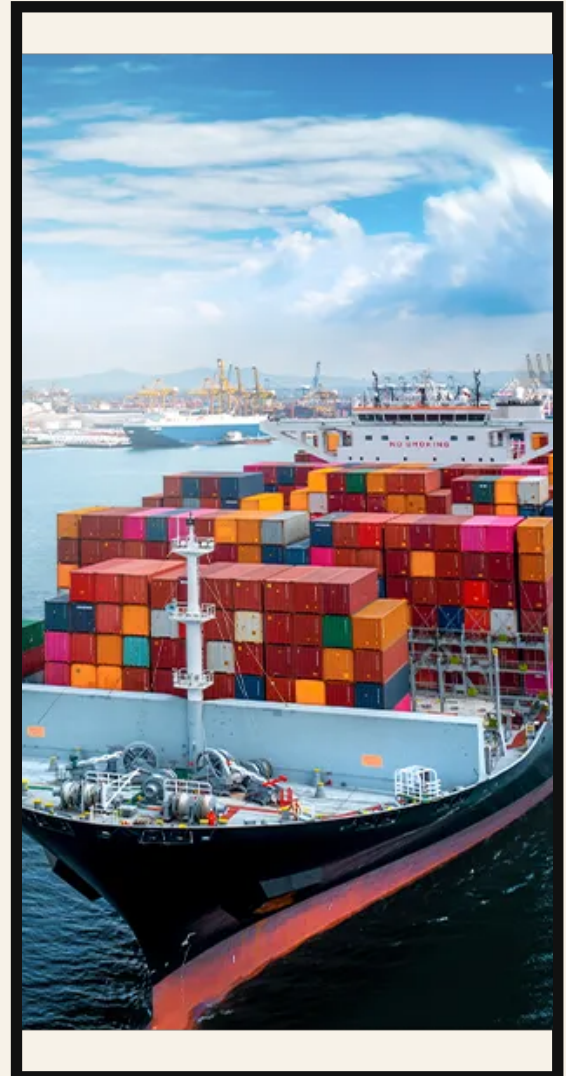

Planned equipment rental for industrial and infrastructure needs, creating recurring rental income.

EXPORT & LOGISTICS

Structured Coordination from Source to Market

The coal businesses present an export approach covering sourcing, specification control, inland movement, port coordination, documentation and shipment planning. Agricultural commodities add further potential for cross-border trade.

- | | |
|----|---|
| 01 | SPECIFICATION CONTROL
GCV, moisture and ash parameters aligned before shipment. |
| 02 | PORT & STOCKYARD
Buffer planning, handling and cargo readiness coordination. |
| 03 | DOCUMENTATION
Customs, export paperwork and commercial documentation support. |
| 04 | SHIPMENT PLANNING
Road, rail, berth and vessel-loading coordination as applicable. |
| 05 | INDEPENDENT INSPECTION
Third-party testing options such as SGS or Intertek when agreed. |
| 06 | TRADE FLEXIBILITY
Common international terms including LC, TT and CAD, subject to contract. |

INTERNATIONAL MARKET FOCUS

Australia

WHY PARTNER WITH US

Built for Dependability. Positioned for Growth.

The combined ecosystem offers operating depth, market responsiveness and a practical pathway into new sectors.

COMPLEMENTARY CAPABILITIES

01

Processing, trading, export, agriculture and future ventures within one leadership ecosystem.

QUALITY DISCIPLINE

02

Attention to measurable parameters, lot-wise confirmation and application fit.

RESPONSIVE EXECUTION

03

Clear coordination from requirement assessment through dispatch support.

MARKET FLEXIBILITY

04

Multiple grades, origins, applications and trade channels.

LONG-TERM RELATIONSHIPS

05

Transparent communication and partnership-led business development.

FUTURE-READY OUTLOOK

06

Structured exploration of solar, import-export, machinery rental and new industrial projects.

OUR VALUES

| | Quality | | Integrity | | Consistency | | Responsiveness | | Responsible Growth
